2013

Our Journey Begins

Our founder, Ravi, on his flight back from the MacArthur Foundation to his home in silicon valley, circles six words on the Foundation's brochure that impacted him profoundly - Aspire, Think, Manage, Engage, Create, Succeed - ATMECS was born. Top market research client signs up with ATMECS as analytics partner.

2014

Market leaders take notice of ATMECS core leadership's relentless pursuit of excellence. Global industry leaders across media & entertainment, communications and financial services partner with ATMECS for product and quality engineering services. ATMECS crosses the 100 employees mark in Hyderabad, India and Santa Clara, CA, US.

2015

ATMECS adds cloud engineering, infrastructure services to its portfolio of services. With industry leaders joining the ATMECS growth story the organization crosses the 300 FTE mark. Major digital & social media and high-tech clients partner with ATMECS to push the boundaries of innovation.

2016

Focus, commitment to delivery, passion for innovation and a partnership DNA with clients enables ATMECS to set up state of the art R&D facilities for collaborative innovation in emerging technologies. ATMECS takes on the avatar of a full service engineering, research and development company.

2017

The ATMECS family is 500+ and growing strong. With over 20 global market leaders partnering with ATMECS, the company opens offices in Plano, TX. The company invests in their passionate minds to build a suite of innovative products and solutions that enable operational efficiencies for our services resulting in cost savings for our clients. ATMECS banks on client impact and value creation ahead of volume.

2018

Expanding its global footprint, ATMECS UK is open for business catering to clients based in Western Europe and UK. Multiple European clients partner with ATMECS for engineering and managed services. ATMECS expands its service offerings to include next generation technologies like Blockchain, Artificial Intelligence, Robotic Process Automation etc.

2019

To accelerate and sustain growth, ATMECS opens offices in Bengaluru, India and Tempe, US, while ATMECS India hires its 1000th employee. ATMECS is a go-to technology accelerator and innovation catalyst for our client partners.

2020

Like most global organizations, ATMECS is affected by the pandemic but the resilience of the ATMECS family is unfazed. With client partners and executive support, ATMECS not only delivers on its commitments but also continues growing from strength to strength. The true character and core values of the organization yield tangible results during this time. ATMECS bets on its strengths in digital technologies to start specialty practices in Sports, Media and Entertainment when live events come to a halt. ATMECS Ireland office is opened.

2021

ATMECS adds speciality practice in Cybersecurity and crosses over 1500 FTE hires. ATMECS invests in building B2B2C platforms that enable clients to market direct-to-consumer. Powering engineering innovation for 50+ industry leaders, ATMECS fortifies its market positioning and reputation with delivery excellence as the foundation.

2022

ATMECS opens its New Jersey office in North Brunswick to provide close proximity support to its clients in the Tri-state and NJ-NY areas. As risk awareness grows post pandemic, ATMECS starts a specialty practice for the Insurance industry to address the technological and business challenges. ATMECS Coimbatore office is also opened.
